JANSSEN COSMETICS

OILY SKIN

- Deeply cleanses the pores
- Regulates excess sebum production
- Provides moisture
- Repels impurities
- Leaves the skin ideally prepared for subsequent skincare
- Skin-friendly pH
- Alcohol-free

Purifying Tonic

CLARIFYING PORE-REFINING TONIC

Purifying Tonic is the second step in the skincare routine for blemished, acne-prone skin. The mild, alcohol-free facial toner removes the last remnants of the cleansing product and make-up, as well as limescale residues that can build up from using tap water. The skin is clarified, gently mattified and moisturised.

The innovative Equal Refining Complex of oleanolic acid and Enantia chlorantha bark extract is proven to refine pores and normalise excess sebum production in oily skin. Glycerine moisturises the skin and reduces any feeling of tension.

Purifying Tonic is the ideal preparation for follow-up care. In the long term, the texture of the skin can be refined significantly.

Application at home

Pour out the Purifying Tonic onto a cotton pad and gently sweep over the face and neck. Apply after each cleansing with Purifying Cleansing Gel.

ACTIVE INGREDIENTS

- **Equal-Refining Complex:** The combination of oleanolic acid and the extract from the bark of Enantia Chlorantha slows down sebocyte growth. The sebaceous glands are put into a dormant state, reducing greasy shine by -21.7% and pore size by -16% after 28 days
- **Glycerine:** Conditioner for the skin. Glycerine has a hygroscopic effect and binds water. This increases the moisture content of the skin
