JANSSEN COSMETICS

OILY SKIN

- Provides a fine, silky, matte complexion
- Reduces sebum flow and refines pores
- Soothes and prevents redness
- Moisturising
- Plumps up small lines and wrinkles

Application at home

Apply Light Mattifying Cream to cleansed skin in the morning and/or evening and gently massage in. Also suitable as a make-up base.

Light Mattifying Cream

LIGHT FACIAL CARE FOR BLEMISHED SKIN

Light Mattifying Cream is a light 24-hour care for oily, blemish-prone skin.

The skin type-specific formula contains active ingredients that clear the skin and give it a fine, silky, matte complexion. The innovative Equal Refining Complex of Enantia chlorantha and oleanolic acid is proven to reduce skin shininess and pore size. The combination of short-chain and long-chain hyaluronic acid ensures that the skin is optimally hydrated and small wrinkles caused by dryness appear smoothed. In addition, natural aloe vera has a calming and soothing effect. Shea butter provides suppleness and silica for an instant mattifying effect.

The result? The skin immediately appears matte and intensively moisturised. Day after day, the skin's appearance becomes cleaner, the pores are refined and sebum production is regulated.

ACTIVE INGREDIENTS

- **Equal-Refining Complex:** The combination of oleanolic acid and the extract from the bark of Enantia Chlorantha slows down sebocyte growth. The sebaceous glands are put into a dormant state, reducing greasy shine by -21.7% and pore size by -16% after 28 days
- **Hyaluronic acid (short and long chain):** Moisturising and retaining moisture; Dryness wrinkles are plumped up
- **Aloe vera extract:** Soothing, purifying, moisturising
- **Shea Butter:** Natural emollient; leaves the skin feeling soft and supple
- **Silica:** Absorbs, mattifies skin shortly after application, leaving skin feeling comfortable
