Blue Fresh Eye Care

SKIN-SMOOTHING EYE CONTOUR GEL

Blue Fresh Eye Care is a crystal clear blue gel cream that is absorbed very quickly into the skin, causing signs of fatigue and stress to disappear immediately and strengthening the skin's barrier against external stimuli.

Blue Fresh Eye Care contains active ingredients that provide optimum moisture and smoothness.

Hyaluronic acid instantly reduces dry lines and makes the skin appear smoother. Oat extract forms a transparent, flexible network on the skin, which adheres to the skin's surface perfectly. The natural lifting agent helps to make the skin look smoother. Copper PCA moisturises and binds moisture in the upper layers of the skin. Anti-ageing peptides help reduce fine lines and wrinkles.

This creates a powerful formula that makes the delicate skin around the eyes appear noticeably firmer and reduces signs of fatigue.

Blue Fresh Eye Care is the final EYECEUTICALS treatment step.

Application at home

Apply morning and evening to cleansed eye area, pat gently.

ACTIVE INGREDIENTS

- **Oat extract:** Oat extract provides noticeably visible skin smoothing
- **Hyaluronic acid:** Nourishes, moisturises and smooths skin
- **Acetyl octapeptide-3:** Anti-ageing peptide, moisturising
- **Arginine:** Amino acid; an important constituent of NMF; helps to moisturise skin and decrease TEWL
- **Copper PCA:** Moisturises, nourishes skin
- **Glycerine:** Moisturising; promotes skin elasticity, improves barrier function
