PLATINUM CARE

- **Supports the skin's natural regeneration**
- **Leaves the skin looking relaxed in the morning**
- **Supports the barrier function of the epidermal horny layer**
- **Optimises the moisture supply**
- **Sumptuous active ingredients for a unique recipe**

■ Night Cream

PREMIUM ANTI-AGING NIGHT CREAM

The skin's own regeneration processes are especially active during the night. The Premium Anti-Aging Night Cream supports the skin in this process. The regenerative formula supplies the skin with highly-active anti-aging active ingredients all night long. The innovative Platinum-MP-Complex is extraordinarily effective at filling lines. The skin's texture is verifiably smoother, lines are filled from the inside and the skin's substance sustainably built up.

Colloidal platinum makes the skin feel noticeably better straight away. The skin appears refreshed and relaxed. Matrixyl™ Synthe'6™ is an innovative peptide proven to fill lines. The highly-effective peptide stimulates the synthesis of six key skin building blocks (collagen I, III and IV, fibronectin, hyaluronic acid and laminine-5). Lines, especially laughter lines and crows' feet, are smoothed effectively, giving the entire skin a much more toned look. Silk acacia extract protects and repairs damaged collagen fibres through glycation and supports the skin's own special detoxifying systems.

A rich lipid complex of shea and mango butter and macadamia nut oil cares for the skin during the night, leaving it silky soft. The skin's own protective barrier is supported and its moisture balance stabilised.

The result? Well-rested facial skin in the morning, greater tone, improved moisture and visibly reduced wrinkles.

Application

After treating the skin with Effect Serum, apply Night Cream and rub in gently.

ACTIVE SUBSTANCES

- **Platinum-MP-Complex:**
 - **Colloidal platinum:** Makes the skin feel noticeably better straight away
 - **Matrixyl™ Synthe'6™ (palmitoyl tripeptide-38):** Highly-effective anti-wrinkle active ingredient, smoothes lines and wrinkles
 - **Silk acacia extract:** Extract from the bark of the Persian silk acacia (Albizia julibrissin), helps against signs of skin fatigue (e.g. dull complexion, haggard facial skin)
- **Lipid complex:** A rich lipid complex of premium shea and mango butter and caring macadamia nut oil create a gentle, caring protective layer and supports the barrier function of the epidermal horny layer
- **Vitamin E acetate:** Is converted to free vitamin E in the skin and neutralises damaging free radicals
- **Short and long chain hyaluronic acid:** Provides intense moisture
